

Grace Family,

Since we last prayed as a church, fires have been raging out of control around California. Firefighters and first responders have been overwhelmed by the demands, triggering the activation of the National Guard. As the threat of more lightning storms loom, we covet your prayers as a congregation.

In Christ alone,
Pastor Bryan

Pray for the firefighters, first responders and National Guard, who have been mobilized to fight the fires. Pray that each one would have clarity and courage as they engage in the work of controlling the spread of fires around the state. Pray for their families who deal with anxiety and fear as they are apart from each other.

Pray for the leadership and wisdom of our leaders. Pray that they would make effective decisions in which fires to fight and how to engage those fires with limited resources. Pray that this would be their finest hour in terms of leadership.

Pray for families and communities that are affected by the fires. Pray for the protection of human and animal lives. Pray that homes would be protected from the flames.

Pray for businesses that are impacted by the fires. Pray that God would meet the needs of those that lost their businesses or jobs. Pray that God would meet their needs in a powerful way and that they would experience the sufficiency of His grace in this season.

Pray for those who lost loved ones or property. Pray that God would comfort people in their loss and that God would give them divine perspective on the brevity of life and the importance of everyone standing in a right relationship with Jesus Christ.

Pray for the end of the fires. Pray that they would cease. While we pray for the needs of people, we also pray for God to supernaturally work and intervene for His glory and our good. Above all, may we rest in His sovereignty as He conforms everything to His good and perfect will.
